All,

Attached is the draft letter that was handed out at the meeting. At this point, please think about the appropriate focus of the letter and content (not whether I ended a sentence with a preposition). There is a lot of excess baggage, I admit, but it is easy to delete. I believe the goal should be 3 pages or less.

To be honest, we (either the CVJV or our organizations) have said much (or all) of this before, and we need to decide what is worth repeating or if we focus more on how they plan to employ adaptive management to address our concerns going forward.

Cheers,
